

# Presentation of Abstract at 2017 Adherence Conference

May 26, 2017

Carminati Consulting, Inc.  
Headquarters Chicago, IL  
June 4, 2017

## **Presentation of Abstract at Adherence® Conference, June 4 – 6 Miami, FL**

We proudly announce that Carminati Consulting and a leading HIV healthcare and research organization have been selected to present a co-authored medical research abstract at the AIPAC 2017 Adherence® Conference in Miami FL June 4 to 6, 2017.

Adherence® is one of the largest HIV treatment and prevention conferences worldwide, attracting more than 400 leading international physicians, clinicians, scientists and business leaders.

The abstract, titled "EMR Query Development to Improve Linkage and Retention Interventions" ©, describes how Carminati Consulting team effectively collaborates with our client to leverage data analytics and business intelligence tools to quickly identify opportunities to increase linkage and retention in care interventions for HIV patients most in need.

**Commenting, Brittany Carminati, Principal of Carminati Consulting, said:** *"This abstract demonstrates Carminati Consulting's ability to create measurable value for our healthcare clients through actionable analytics. This abstract demonstrates our ability to create measurable value for our healthcare clients through actionable analytics. We share a passion with our Healthcare Clients in leveraging technology to improve lives".*
