

Carminati Consulting Shortlisted for 2017 SaaS Awards

International Software Program Announces Finalists

Chicago, Illinois – August 1, 2017 – Carminati Consulting’s ImmuwareSM solution is a finalist in the 2017 [SaaS Awards](#) Program, in the category *Best SaaS for Productivity*.

ImmuwareSM has revolutionized the way healthcare organizations capture, track, record, and analyze employee vaccinations and other critical health compliance data. The software streamlines and fully automates the internal employee health and immunization compliance process, thereby improving the way healthcare organizations communicate and engage with employees, contractors and volunteers throughout annual employee health campaigns.

Empowered with up-to-date information at their fingertips and automated triggered alerts, ImmuwareSM enables employees to take ownership of their compliance obligations, and allows management to quickly identify compliance bottlenecks and effect process improvements. ImmuwareSM also streamlines the CDC’s National Healthcare Safety Network (NHSN) compliance process, by enabling the creation and delivery of NHSN reports as standard functionality.

“SaaS competition in the global marketplace is incredibly tight; for ImmuwareSM to be shortlisted in the *Best SaaS for Productivity* category is an incredible achievement for our team. We are very proud of the ImmuwareSM solution, and the dramatic reduction in time and risk it is providing our clients as they manage employee health initiatives and compliance”, stated Brittany Carminati, Principal of Carminati Consulting.

SaaS Awards and Cloud Awards organizer Larry Johnson commented: “The global SaaS competition is incredibly fierce, with disruptive technologies regularly shaking up the marketplace – and the dust is far from settled. Providers are constantly innovating to ensure their clients are always leveraging best-of-breed software services that are reliable, yet still on the cutting edge. With such a high standard of submissions, it is going to be extremely difficult for our judges to select our final award winners.”

Final SaaS Awards winners will be announced on August 29, 2017. Over 300 organizations were considered, with entries coming from North America, Canada, Australia, UK, Europe and the Middle East. Click [here](#) to view the full shortlist.
