Carminati Consulting's President selected to join the Economic Club of Chicago

Congratulations to our Founder and President, Brittany Carminati, for becoming one of the newest members of the prestigious [Economic Club of Chicago](#). As part of the nomination process, Brittany was recognized as an influential young leader that has demonstrated strong leadership as founder and CEO of Carminati Consulting, made impressive achievements in software development and IT strategy consulting on behalf of her clients, and provided significant contributions to our community.

"I am grateful and honored to have been selected. It is humbling to be surrounded by, and to have the opportunity to learn from, such an accomplished and inspiring group of professionals. I am excited to become an active member of the ECC, serve my community, and help future leaders succeed just as so many have helped me along the way", commented Brittany at a recent Carminati Consulting team meeting.

Since inception in 1927, the ECC has been an organization dedicated to mentoring the next generation of leaders. The ECC brings together established, experienced leaders with new up and coming leaders. Members meet for discussion and debate on important issues that affect our future on local, national and international levels. Throughout the Club's history, members have been exposed to the thoughts and ideas shared by international heads of state, U.S. Presidents, CEOs, journalists, educators, labor leaders and historians.

All of us at Carminati Consulting are very proud of Brittany for being selected to join the ECC. We wish her great success and are honored and inspired to be on her team.
