

## **Carminati Consulting Shortlisted for 2018 SaaS Awards**

*International Software Program Announces Finalists*

**Chicago, Illinois – August 2, 2018** – Carminati Consulting’s Immuware™ is a finalist in the 2018 [SaaS Awards](#) Program in the category *Best SaaS for Productivity*.

Immuware™ has revolutionized the way healthcare organizations capture, track, record, and analyze employee vaccinations and other critical health compliance data. The software streamlines and fully automates the internal employee health and immunization compliance process, thereby improving the way healthcare organizations communicate and engage with employees, contractors and volunteers throughout annual employee health campaigns.

Empowered with up-to-date information at their fingertips and automated triggered alerts, Immuware™ enables employees to take ownership of their compliance obligations, and allows management to quickly identify compliance bottlenecks and effect process improvements. Immuware™ also streamlines the CDC’s National Healthcare Safety Network (NHSN) compliance process, by enabling the creation and delivery of NHSN reports as standard functionality.

“SaaS competition in the global marketplace is incredibly tight; for Immuware™ to be shortlisted in the *Best SaaS for Productivity* category is an incredible achievement for our team. We are very proud of the Immuware™ solution, and the dramatic reduction in time and risk it is providing our clients as they manage employee health initiatives and compliance”, stated Brittany Carminati, Principal of Carminati Consulting.

SaaS Awards and Cloud Awards organizer Larry Johnson said: “In our third year promoting SaaS exclusively alongside its sister awards program, the long-running Cloud Awards, we have seen a huge variety of submissions from the US joining those from Canada, Europe, Australia and the East – from organizations whose turnovers rank the highest in the world, to innovative not-for-profits seeking to provide essential productivity tools to their users.

“All entrants demonstrated considerable commitment to innovation in software solutions, and to make the shortlist itself is a huge achievement. With such a concentrated level of success in the shortlist, our judges have a significant task ahead of them to arrive at our final award winners.”

Final SaaS Awards winners will be announced on Tuesday August 28, 2018 and the program will return in Spring 2019. Over 300 organizations entered, with international entries coming from North America, Canada, Australia, UK, Europe and the Middle East. To view the full shortlist, please visit:
